FISCAL ANALYSIS

ASSUMPTION

Officials of the **Office of Secretary of State- Elections**, stated that each precinct would need a method to report registration of voters in real time to the central election office. This could be achieved by providing a laptop at each precinct (*state contract price- \$1,612 x 4,432 = \$7,144,384*). Election authorities would need an internet provider linking them to the central office. That cost is indeterminable at this time. Purchase of laptops would be a one-time purchase with upgrades needed on a regular basis. Fiscal years 2005 and 2006 would begin to include some replacement costs. Officials estimate costs of replacement at \$100,000 and with internet connections, which costs are unknown, the costs will be more than \$100,000.

Officials of the **Office of Secretary of State- Administrative Rules**, assume that to promulgate rules to implement this proposal would have publication costs. Rules would be published in the Missouri Register and the Code of State Regulations. Officials stated that based on experience with other divisions, the rules and regulations could require as many as 12 pages in the Code of State Regulations. Roughly half again as many pages are published in the Missouri Register as in the Code. The estimated cost of a page in the Missouri Register is \$23. The estimated cost of a page in the Code is \$27. The actual cost could be more or less than the numbers given. The impact of the legislation in future years is Unknown and depends upon the frequency and length

of rules filed, amended, rescinded, or withdrawn. Officials estimate costs in FY 2004 at \$738.

ASSUMPTION (continued)

Oversight assumes the SOS could absorb the costs of printing and distributing regulations related to this proposal. If multiple bills pass which require the printing and distribution of regulations at substantial costs, the SOS could request funding through the appropriation process. Any decisions to raise fees to defray costs would likely be made in subsequent fiscal years.

Officials of the **Kansas City Board of Election Commission** stated that the Commission currently uses approximately 200 polling places in state elections. 2 registrars per poll, at \$85 per day would amount to **\$17,000**. Added to this cost would be training for 400 registrars at \$25 each or an additional **\$10,000**. Therefore, this proposal would increase election cost to the Kansas City Election Board of approximately **\$27,000** per election.

Officials of the **St. Louis County Board of Election Commission** stated this proposal would require their board to add two additional election judges at each polling place in order to handle voter registration. In order to staff 475 polling places in a countywide election would increase election costs as follows: 475 polling places x two judges @ \$85 per day = **\$80,750**. Added to this cost is the cost of training for 950 judges @ \$25 each = **\$23,750**. Officials estimate there would be a one-time cost for additional boxes at a cost of \$32 @ or **\$15,318**. Total costs in FY 2004 would be approximately **\$119,818**, and approximately **\$104,500** per election thereafter.

Officials of the **Franklin County Clerk's Office** assume they would need 2 additional poll workers at each polling place to conduct voter registration. Officials estimate additional election cost in FY 2004 at **\$46,000**; **\$26,000** in FY 2005; and **\$36,000** in FY 2006.

Officials of the **Taney County Clerk's Office** estimate they would need the following:

23 extra ballot boxes at \$50 @	= \$1,150
46 extra judges for registration	= \$4,830
Overtime costs	= \$ 50
Total Costs per election	\$6,030

Officials of the **Cass County Clerk's Office** assume no fiscal impact.

Entities not responding are as follows:

**St. Louis City Board of Election Commission, Clay County Board of Election Commission,
 and the County Clerks of: Callaway, Greene, Boone, Marion, and Jefferson counties.**
